

Prevention of Violence against Women and Children

About SNEHA

A secular, Mumbai-based non-profit organisation, SNEHA believes that investing in women's health is essential to building viable urban communities. SNEHA is 450+ person strong, innovative and progressive organization that works on health and nutrition in urban slum pockets with women and their families. SNEHA follows the life-cycle approach to health and nutrition, by intervening at critical junctures (adolescence, preconception, conception, pregnancy, postnatal, infancy and toddlerhood, family planning) to ensure improved health and nutritional outcomes for women and children living in some of Mumbai's most vulnerable and deprived slums and in the Mumbai Metropolitan Region (MMR) as well.

SNEHA recognises that, in order to improve urban health standards, our initiatives must target both care seekers and care providers. We work with communities residing in informal settlements to empower women and communities to be catalysts of change in their own right and collaborate with existing public health systems and health care providers to create sustainable improvements in urban health. We have currently 11 programs running across SNEHA which are Maternal and Newborn Health (MNH), Child Health and Nutrition (CHN) - Aahar, Empowerment, Health and Sexuality of Adolescents (EHSAS), Prevention of Violence against Women and Children (PVWC) (e) SNEHA Centre, SNEHA Shakti, Healthy Cities Project (HCP), Palliative Care, Livelihood Generation, Central Operations, Research and IM.

ABOUT THE PROGRAM

SNEHA's Program on Prevention of Violence against Women and Children (PVWC) aims to develop high-impact strategies for primary prevention, ensure survivors' access to protection and justice, empower women to claim their rights, mobilise communities around 'zero tolerance for violence', and respond to the needs and rights of excluded and neglected groups. The Program prioritizes enhanced co-ordination of the state response to crimes against women through a convergence approach that works with government and public systems to reinforce their roles in assuring basic social, civil and economic security.
