

## JOB DESCRIPTION – CONSULTANT NURSE

### ABOUT SNEHA

A secular, Mumbai-based non-profit organisation, SNEHA believes that investing in women's health is essential to building viable urban communities. SNEHA is a 450+ person strong, innovative and progressive organization that works on health and nutrition in urban slum pockets with women and their families. SNEHA follows the life-cycle approach to health and nutrition, by intervening at critical junctures (adolescence, preconception, conception, pregnancy, postnatal, infancy and toddlerhood, family planning) to ensure improved health and nutritional outcomes for women and children living in some of Mumbai's most vulnerable and deprived slums and in the Mumbai Metropolitan Region (MMR) as well. SNEHA recognises that, in order to improve urban health standards, our initiatives must target both care seekers and care providers. We work with communities residing in informal settlements to empower women and communities to be catalysts of change in their own right and collaborate with existing public health systems and health care providers to create sustainable improvements in urban health. We have currently different programmes running across SNEHA which are Aahar Programme, Sneha Centres Programme, Building Bridges Programme, Healthy Cities Programme (HCP), Public System Partnership, Empowerment Health and Sexuality of Adolescents (EHSAS) and Prevention of Violence against Women and Children (PVWC).

### ABOUT THE PROGRAM

Romila Palliative Care

This project seeks to provide palliative care to all people, irrespective of caste, creed, religion and economic status, to allow them to live their life with minimum pain, with dignity and comfort, to the very end. It seeks to provide prevention of and relief from suffering to patients with life-limiting illness or experiencing intense pain through provision of medical support, counseling and spiritual services.

### THE PROFILE - NURSE

Provide nursing support to patients approaching for Palliative Care

### RESPONSIBILITIES

The Nurses will provide support through nursing care using updated current practices and will train family members in home-based care. They will be a crucial component of the palliative care team and will provide their services not just at the RPC but also during home visits. They are also responsible for documentation of patient records. A major component of their work focuses on the delivery and of emotional care and support to patients and their families. Will also have to train other stakeholders on palliative care once trained
